Specialist Conditions (transplant patients) Only if started before 1st April 2013

- Sirolimus
- Tacrolimus
- For any new patients (transplanted since 1st April 2013) then please refer prescribing back to specialist
- Contact the Medicines Optimisation Team for further advice if required

Consideration for other drugs or exceptional patients

- For any other drugs or patients to be considered for CCG prescribing budget subsidy, please complete an exceptional funding request form - <https://prescribing.wiltshireccg.nhs.uk/?wpdmdl=1622>
- Patients/drugs for which an application could be considered
 - individual drug costs in excess of £1000 per month
 - prescribing costs for the patient as a whole (e.g. multiple liquid medication for a PEG fed patient) form an excessively high proportion of the prescribing budget for a GP practice

The following items have been removed from the previous version of this list as they are already funded by the CCG

- Elemental 028
- Condition Specific Treatment and Appliances
- Cows Milk Protein Allergy products, PKU products, Tracheostomy and Laryngectomy appliances
