

# MOCH MONTHLY

Special Issue , November 2019 Medicines Optimisation in Care Homes (MOCH) Newsletter for Care

The social care sector can now access [NHSmail](#) and [SystemOne](#) (patient records system used all GP practices across Wiltshire) for **free!**

All you need to do is reach Entry Level on the [Data Security Protection Toolkit](#). But, don't panic the Digital Team are here to support you through this!

## The NHS is going Digital!

### Why NHSmail?

- CQC compliance on information sharing
- Reduced waiting times for patients/citizens to be transferred to a care setting
- Improved sharing of hospital discharge information electronically on the day of discharge
- Speeding up communications between your organisation and the NHS and Social Care e.g. hospital, GPs, Pharmacists, Local Authorities, etc.
- Reduced use of older, less secure ways of sharing data i.e. fax

**Please note fax machines will cease on 31<sup>st</sup> March 2020 in GP Practices.**

### Why SystemOne?

- Patient record available to the home 24/7 rather than having to wait for the GP surgery to be open
- Request drugs and changes directly through the system (no more faxing/phoning)
- Integrated care for the care homes and GP practices
- Send queries to the GP Practice via the systems 'Task' functionality
- Increased patient safety as patient record, medications and allergies are visible to the nursing home
- Improved efficiency at care home due to time saved having to request information from practices

### Remember MOCH

When you are ready to go live with nhs.net and are set to start ordering online. Think MOCH.

We can support you and the surgery with making sure your repeats are accurate and appropriate. So if you would like our support, get in touch and we can arrange a visit.

Reliable and accurate ordering reduces waste and saves the NHS money, saves you time and provides the best resident support.
